Subject index*

A

Aberrant conduction, self assessment, 260
Abortion, complication of hypertonic saline induction of, 116
Adolescents and children, psychosocial aspects of cardiac disease in, 394
Airway obstruction, chronic, arrhythmias in acute respiratory failure associated with, 888
American Association of Critical-Care Nurses, books and audio-visual materials, review of, 132, 292, 440, 589, 768
Directory, AACN officers, directors, and chapters, 136, 295, 446, 603, 773
News and announcements, 21, 192, 337, 487, 639
Office of the executive director, 20, 168, 330, 484, 637
President's message, 18, 326, 480, 632
Aneurysms, ventricular, spectrum of, 211
Angina pectoris, variant, atypical Prinzmetal's, 431
Anomalies, hindbrain, respiratory failure as surgical risk in patients with, 546
Antiarrhythmic drugs in prevention of sudden death, possible role of, 857
Anxiety and urinary sodium/potassium as stress indicators on admission to a coronary-care unit, 875
Aortocoronary saphenous vein bypass, a review of the literature, 90
Arrest, cardiac, in critically ill patient, 847
Arrhythmias, cardiac, and conduction disturbances, complications of central venous pressure monitoring, 416
systemic approach to the management of, 751
in acute respiratory failure associated with chronic airway obstruction, 888
indications and contraindications of cardioversion for, 552
of acute myocardial infarction, beta-adrenergic blockade in, 662
Aspiration, mechanical, minimizing harmful effects of, 542
Atrial flutter with aberrant ventricular conduction simulating extrasystolic ventricular bigeminy, 905
Atropine in bradycardia in the coronary-care unit and elsewhere, 666
A-V block, His bundle electrocardiography in, 271
use of pacemakers in, due to chronic disease, 111

B

Balloon, intra-aortic, new challenge in cardiac nursing, 526
Behavioral responses following an acute myocardial infarction, nursing management of, 62
Beta-adrenergic blockade in arrhythmias of acute myocardial infarction, 662
Bigeminy, ventricular, extrasystolic, atrial flutter with aberrant ventricular conduction simulating, 905
Bradyarrhythmias associated with dialysis, treatment with intracardiac pacemaker, 571
Bradycardia in the coronary-care unit and elsewhere, atropine in, 666
Bundle branch block, right, in acute myocardial infarction: prognostic importance of degree of heart failure, 870
Burn patient, challenge in critical care, 686
shock, fluid and electrolyte therapy of, 707
therapy, what are we doing?, 688
Burned patient, positioning and splinting, 696
pulmonary management of, 714
severe, during the acute phase, nursing management of emotional reactions of, 370
team approach to the total rehabilitation of severely, 701
Burn-wound management, 690
Bypass, partial cardiopulmonary, use of in the treatment of acute viral pneumonia, 901

C

Cardiac arrest in critically ill patient, 847
arrhythmias, systemic approach to the management of, 751
catheterization laboratory in a community hospital—observation on a five-year experience, 896
death, sudden, 834
sudden, prevention of, 851
sudden, psychological aspects of, 836
disease, psychosocial aspects of, in children and adolescents, 394
nursing, new challenge in, intra-aortic balloon, 526
pacing, management of stimulation and sensing problems in temporary, 533
modern concepts of, 238
patient, sexuality and the, 70
Cardiogenic shock, evaluation and management of, the roles of cardiac surgery and mechanical assist, 122
recognition and evaluation of, 893
Cardiopulmonary bypass, partial, use of, in treatment of acute viral pneumonia, 901
emergencies in the newborn, diagnosis and management, 878
Cardiovascular facilities, decision making, and the community hospital, 829
patient, preoperative teaching of, 522
program for teaching of, 508
Cardioversion for arrhythmias, indications and contraindications of, 552
Care for the critically ill, toward humane, 43
Catheter, Swan-Ganz, use of, in diagnosis of ventricular septal defect after myocardial infarction, case report, 539

*January-February, pp. 1-150; March-April, pp. 151-310; May-June, pp. 311-462; July-August, pp. 463-612; September-October, pp. 613-786; November-December, pp. 787-958.

Center for the critically ill, administrative management of, 218
Central venous pressure monitoring, complications of, cardiac arrhythmias and conduction disturbances, 416
Children and adolescents, psychosocial aspects of cardiac disease in, 394
Chronic obstructive pulmonary disease patient, psychosocial aspects of care in, 389
Communication with acutely ill patients, enhancing therapeutic, 49
Community hospital, cardiac catheterization laboratory in a—observation of a five-year experience, 896
Conduction, aberrant, self assessment, 260
ventricular, simulating extrasystolic ventricular bigeminy, atrial flutter with, 905
disturbances, complications of central venous pressure monitoring, cardiac arrhythmias and, 416
COPD patient and the coronary-care unit, 580
Corinthians, epistle to the new, 180
Coronary artery disease, electrophysiologic mechanisms of sudden death in patients with, 841
care, a decade of in Melbourne, Australia, 659
unit, anxiety and urinary sodium/potassium as stress indicators on admission to a, 875
atropine in bradycardia in, and elsewhere, 666
COPD patient and, 580
nurse, area of concern for, transfer process, 364
Critical-care nursing, nurse and her reactions to, 358
unit, hypothermia in, 58
Critically ill, human needs of, 47
patient, care of the, 104
toward humane care for the, 43

D

Death, cardiac, sudden, 834
psychological aspects of, 836
prevention of, 851
sudden, approach to, outside hospital, 862
from ventricular fibrillation, transvenous automatic defibrillator as an approach to prevention of, 867
in patients with coronary artery disease, electrophysiologic mechanisms of, 841
possible role of antiarrhythmic drugs in prevention of, 857
Defect, ventricular septal, use of Swan-Ganz catheter in diagnosis of, after myocardial infarction, case report, 539
Defibrillator, transvenous automatic, as approach to prevention of sudden death from ventricular fibrillation, 867
Dialysis, bradyarrhythmias associated with, treatment with intracardiac pacemaker, 571
Disease, chronic, use of pacemakers in A-V block due to, 111
Diuretics, use of, in acute myocardial infarction, 434
Drugs, antiarrhythmic, in prevention of sudden death, possible role of, 857

E

Editor, letters to the, 128, 290, 588
a new nurse, 41
Electrical stimulation of the heart in study of supraventricular tachycardia, His bundle electrograms and programmed, 561
Electrocardiogram abnormalities discovered with treadmill stress testing, 227
Electrograms, His bundle, and programmed electrical stimulation of the heart in the study of supraventricular tachycardia, 561
Electrolyte imbalance, 909
Electrophysiologic mechanisms of sudden death in patients with coronary artery disease, 841
Emotional effects of surgical illness, 368
reactions of severely burned patients during the acute phase, nursing management of, 370
Exit block, Wenckebach 3:2, extrasystolic ventricular tachycardia with, 265

F

Failure, respiratory, as surgical risk in patients with hindbrain anomalies, 546
Farmer, case of stoic, 744
Fibrillation, ventricular, transvenous automatic defibrillator as an approach to prevention of sudden death from, 867
Fluid and electrolyte therapy of burn shock, 707

G

Gastric ulcer, acute perforation of, 284
Geneticist and preventive medicine, 209

H

Health education program, post-hospital, 512
Heart, acute infection of, 422
failure, right bundle branch block in acute myocardial infarction, prognostic importance of the degree of, 870
motion video tracking, 675
Hemodialysis, maintenance, patient, psychology and care of, 400
Hindbrain anomalies, respiratory failure as surgical risk in patients with, 546
His bundle electrocardiography in A-V block, 271
electrograms and programmed electrical stimulation of the heart in the study of supraventricular tachycardia, 561
recordings in patients with acute myocardial infarction, 682
Hospital, community, cardiovascular facilities, decision making, and the, 829
Hypertonic saline induction of abortion, complication of, 116
Hypothermia in the critical-care unit, 58

I

Illness, surgical, emotional effects of, 368
Infarction, myocardial, acute, beta-adrenergic blockade in arrhythmias of, 662
His bundle recordings in patients with, 682
shock following, 582
use of Swan-Ganz catheter in diagnosis of ventricular septal defect after, case report, 539
Injection, intramuscular, plasma levels of lignocaine after, 669
Intensive care nursing, psychosocial factors in, 355
unit and observation of the patient acutely ill with neurologic disease, 884
management of the serious suicide attempt, a special nursing problem, 376
Intra-aortic balloon, new challenge in cardiac nursing, 526

L

Laboratory, cardiac catheterization, in a community hospital—observation on a five-year experience, 896
Lignocaine, plasma levels of, after intramuscular injection, 669
Lung disease, chronic obstructive, result of interaction of genetic and environmental factors, 222

M

Maintenance hemodialysis patient, psychology and care of, 400
Medicine, preventive, geneticist and, 209
Myocardial infarction, acute, beta-adrenergic blockade in arrhythmias of, 662
nursing management of behavioral responses following, 62
prognostic importance of the degree of heart failure, right bundle branch block in, 870
use of diuretics in, 434
His bundle recordings in patients with acute, 682
patients, psychological rehabilitation of, in acute phase, 382
physical signs in acute, 74
shock following acute, 582
use of Swan-Ganz catheter in diagnosis of ventricular septal defect after, case report, 539
revascularization, direct, by saphenous vein graft technique, clinical application of direct, 45

N

Neurologic disease, intensive-care unit and observation of the patient acutely ill with, 884
Newborn, cardiopulmonary emergencies in, diagnosis and management, 878
Next step (editorial), 207
Nursing projected, 187

P

Pacemaker clinic, telephone, transmission of the pacemaker artifact and peripheral pulse, 253
in A-V block due to chronic disease, use of, 111
intracardiac, bradyarrhythmias associated with dialysis, treatment with, 571
Pacing, cardiac, management of stimulation and sensing problems in temporary, 533
modern concepts of, 238
Parasystole, reappraisal of, 81
Patients, acutely ill, enhancing therapeutic communication with, 49
preoperative teaching of, 522
program for teaching of, 508
teaching of, some latent meanings, 506
Plasma levels of lignocaine after intramuscular injection, 669
Pneumonia, acute viral, use of partial cardiopulmonary bypass in the treatment of, 901
Pneumonitis, intraoperative aspiration, 758
Preoperative teaching, influencing recovery through, 515
cardiovascular patient, 522
Preventive medicine, geneticist and, 209
Prinzmetal's angina pectoris, atypical, variant angina pectoris, 431
Procainamide, reappraisal of an old antiarrhythmic drug, 277
Psychiatric syndromes, critical-care, 54
Psychologic rehabilitation of myocardial infarction patients in the acute phase, 382
Psychology and care of maintenance hemodialysis patient, 400
Psychosocial aspects of cardiac disease in children and adolescents, 394
care in chronic obstructive pulmonary disease patient, 389
factors in intensive-care nursing, 355
Pulmonary artery end-diastolic pressure, assessment of, as an indirect measurement of pulmonary artery capability mean pressures, an index to left ventricular function, 232
disease, chronic obstructive, patient, psychosocial aspects of care in, 389
management of burned patient, 714
problems, clinical, introducing a new department (editorial), 505
therapy, perplexing problem in, 917
Pulse, peripheral, transmission of the pacemaker artifact and, telephone pacemaker clinic, 253

R

Respiratory failure, acute, associated with chronic airway obstruction, arrhythmias in, 888
as surgical risk in patients with hindbrain anomalies, 546
stimulants, review of literature and assessment of current status, 726
Revascularization, myocardial, direct, by saphenous vein graft technique, clinical application of, 45
Rhythm, reciprocal, basic forms of, 732
Risk, surgical, in patients with hindbrain anomalies, respiratory failure as, 546

S

Saphenous vein bypass, aortocoronary, a review of the literature, 90
graft technique, clinical application of direct myocardial revascularization by, 45
Septal defect, ventricular, after myocardial infarction, use of Swan-Ganz catheter in diagnosis of, case report, 539
Shock, burn, fluid and electrolyte therapy of, 707
cardiogenic, 738
following acute myocardial infarction, 582
Sodium/potassium, urinary, as stress indicators on admission to a coronary-care unit, anxiety and, 875
Station, every nurse's, is a life-support station, 832
Stimulants, respiratory, review of literature and assessment of current status, 726
Stimulation, electrical, of heart in study of supraventricular tachycardia, His bundle electrograms and programmed, 561
Stress indicators on admission to a coronary-care unit, anxiety and urinary sodium/potassium as, 875
testing, treadmill, electrocardiogram abnormalities discovered with, 227
Suicide attempt, serious, management of, a special ICU nursing problem, 376

Supraventricular tachycardia, His bundle electrograms and programmed electrical stimulation of the heart in the study of, 561
Swan-Ganz catheter, use of, in diagnosis of ventricular septal defect after myocardial infarction, case report, 539
Syndromes, psychiatric, critical-care, 54

T

Tachycardia, supraventricular, His bundle electrograms and programmed electrical stimulation of heart in study of, 561
ventricular extrasystolic, with 3:2 Wenckebach exit block, 265
Teaching of cardiovascular patients, program for, 508
patients, some latent meanings of, 506
preoperative, influencing recovery through, 515
of cardiovascular patient, 522
Telephone pacemaker clinic, transmission of the pacemaker artifact and peripheral pulse, 253
Therapy, burn, what are we doing?, 688
fluid and electrolyte, of burn shock, 707
Tidal volume, experimental evaluation of, means for noninvasive monitoring of, 410
Transfer process: area of concern for the CCU nurse, 364
Transvenous automatic defibrillator as an approach to prevention of sudden death from ventricular fibrillation, 867
Treadmill stress testing, electrocardiogram abnormalities discovered with, 227

U

Urinary sodium/potassium as stress indicators on admission to a coronary-care unit, anxiety and, 875

V

Vein, saphenous, graft technique, clinical application of direct myocardial revascularization by, 45
Ventricular aneurysms, spectrum of, 211
bigeminy, extrasystolic, atrial flutter with aberrant ventricular conduction simulating, 905
conduction, aberrant, simulating extrasystolic ventricular bigeminy, atrial flutter with, 905
fibrillation, transvenous automatic defibrillator as an approach to prevention of sudden death from, 867
function, left, index to, assessment of pulmonary artery end-diastolic pressure as an indirect measurement of pulmonary artery capability mean pressures, 232
tachycardia, extrasystolic, with 3:2 Wenckebach exit block, 265
Video tracking, heart motion, 675
Viral pneumonia, acute, use of partial cardiopulmonary bypass in treatment of, 901

W

Wenckebach exit block 3:2, extrasystolic ventricular tachycardia with, 265
